Career Objective

Motivated and detail-oriented Software Engineer with a strong focus on Back-End Web Development using PHP and Laravel. Passionate about building scalable web applications and designing efficient backend systems. Seeking professional opportunities to contribute to real-world software projects while continuously developing technical and problem-solving skills.

Education

Al-Azhar University – Gaza
Faculty of Engineering and Information Technology
Major: Software Engineering
Bachelor's Degree in Software Engineering 2021 – 2026

GPA: 84%

Technical & Professional Interests

- Back-End Web Development
- Software Design and Architecture
- Database Systems
- Web Application Development
- API Design and Integration

Professional Training & Certifications

Certified Training Programs – Engineers Syndicate

Front-End Development Course – Udemy

Completed an online training course covering:

- HTML5
- CSS3
- JavaScript
- Responsive Web Design
- Basic front-end project development

Back-End Development Training – Vision Plus

Completed a professional training program focused on PHP and Laravel back-end development, including:

- Building web applications using Laravel framework
- Working with MVC architecture
- Implementing CRUD operations
- Database integration with MySQL
- Developing RESTful APIs

Back-End Development Training – Code Tech

Participated in a backend development training program covering:

- Backend system design
- Web application development
- Database structure and optimization
- API development and integration

Technical Skills

Programming Languages : Java, PHP

Frameworks : Laravel

Databases : MySQL, SQL

Web Technologies : HTML, CSS, JavaScript

Concepts : Object-Oriented Programming (OOP), Design Patterns, Web APIs

Tools & Platforms : Git, GitHub

Soft Skills

- Problem Solving
- Analytical Thinking
- Communication and Teamwork
- Time Management
- Adaptability and Quick Learning
- Attention to Detail

Extracurricular & Self-Development

Continuous self-learning in back-end technologies and modern development tools.
Working on academic and personal projects to enhance practical programming skills.
Using GitHub for version control and project collaboration.

Languages

Arabic: Native
English: Intermediate (Reading, Writing, Speaking)

Professional Interests

- Back-End Web Development
- Software Architecture
- Database Systems
- API Development
- Scalable Web Applications

Additional Notes

Highly motivated software engineer with a strong interest in backend development and modern web technologies. Committed to continuous learning, improving technical expertise, and contributing to impactful software projects.
